4 Math

Math is hard. The Pythagorean theorem inline is $x^2 + y^2 = z^2$. If you want to make a bigger deal about it, you can also do:

$$a^2 + b^2 = c^2$$

5 Code

Syntax highlighting looks fancy. This is a bit of code we wrote earlier this year:

```
app.get('/greet/:name', function(req, res){
  res.send("Hello there, " + req.params.name + ".");
});

var server = app.listen(process.env.PORT, function () {
  var host = server.address().address;
  var port = server.address().port;

  console.log('Example app listening at http://%s:%s', host, port);
});
```
